other pioneers to seek a scientific basis for training theory and methodology. The scientific staging for periodization was based on the thought that an athlete needs to receive an optimal exercise or training stimulus balanced with appropriate unloading ... Comparative politics is a field in political science characterized either by the use of the comparative method or other empirical methods to explore politics both within and between countries. Substantively, this can include questions relating to political institutions, political behavior, conflict, and the causes and consequences of economic development. Chronological dating, or simply dating, is the process of attributing to an object or event a date in the past, allowing such object or event to be located in a previously established chronology. This usually requires what is commonly known as a "dating method". Several dating methods exist, depending on different criteria and techniques, and some very well known examples of ...
